

# AQUAMASTER

The main feature of the new range of Aquamaster connectors and accessories is their distinctive large diameter. Designed for 3/4" and 1" hoses, they ensure that more water can pass through, supporting high pressures. Ideal for professional applications such as agriculture and construction, the Aquamaster range is often the best solution in the garden, too: from its use with suction pumps to hoses of a longer length. It offers a high flow rate and a tight seal, thanks to the Safety-Lock rapid coupling technology.

**MAX-FLOW O-RING AND WASHERS SET****9657**

O-rings and spare 1" and 3/4" washers for products in the Max-Flow range.

It includes:  
 - 3 Max-Flow O-rings,  
 - 2 standard O-rings,  
 - 1 x 1" (26-34 mm) washer,  
 - 1 x 3/4" (20-27 mm) washer.
