

HAPPY FRESH EVOLUTION

Happy Fresh is the practical kit designed by Claber to cool down hot summer days on the patio, in the garden or on the terrace. The efficiency of the micro-mist nozzles means that the microscopic drops of water released into the atmosphere can reduce the temperature by up to 6 degrees, creating a feeling of well-being on even the hottest days. Quick to assemble, the Happy Fresh Kit can easily be hooked onto parasols, gazebos and sunshades; you just need a tap and an extension hose to enjoy only the pleasant side of summer. The system can be integrated with Aquauno Mist, the new versatile battery-powered Claber timer that allows you to set the frequency and run time of the nebulisation periods.

HAPPY FRESH KIT

Only the best of summer

UP TO 6 DEGREES LESS,
THANKS TO THE EFFICIENCY
OF THE MICRO-MIST NOZZLES

EASY ATTACHMENT
AND ANTI-DRIP BRASS NOZZLES

OPTIONAL TIMER

AQUAUNO MIST

8496

Automatic one-way timer, ideal for cyclical automation of both Happy Fresh cooling systems and watering systems on the terrace and in the garden. Easy programming with 2 rotary knobs: one to set the frequency and the other to select the run time. 27 programs can be selected for drip systems (yellow sector, run time from 2 to 90 mins every 12, 24 or 48 hours), 24 possible combinations for Happy Fresh systems (blue quadrant, run time from 5 to 45 seconds, every 1, 3, 5, 10 mins). Option of 5 min function test. Equipped with washable filter. Works with 9 V alkaline battery. Electronic part perfectly sealed. Operating pressure from 0.5 to 10 bars. 100% checked and tested.

HAPPY FRESH EVOLUTION KIT 7,5 M

90751

Misting kit ideal for cooling down outdoor spaces on hot summer days. The kit (made up of 7.5 m of hose, 6 micro-mist nozzles, connectors and fitting clips) can easily be hooked onto sunshades, gazebos and parasols and connected to the tap (using an extension hose fitting that is not provided). The micro-mist sprayers, with anti-drip brass nozzles, release a vapour of microscopic drops of water into the air, which allow the atmosphere to be cooled by up to 6°. The system can be automatically activated by adding the Aquauno Mist timer (not included). Operating pressure: 3-6 bar.

CONTAINS

Hose	7,5 m	Spring clips to fasten hose	11
In-line micro-mist nozzles	5	3/4" thread male connector	1
End-of-line micro-mist nozzle	1	Connector for hose with washable filter	1
Clips + screws to fasten hose	11 + 11

KIT HAPPY FRESH EVOLUTION KIT 12 M W/TIMER

90753

Misting kit ideal for cooling down outdoor spaces on hot summer days. The kit (made up of 12 m of hose, 9 micro-mist nozzles, connectors and fitting clips) can easily be hooked onto sunshades, gazebos and parasols. The micro-mist sprayers, with anti-drip brass nozzles, release a vapour of microscopic drops of water into the air, which allow the atmosphere to be cooled by up to 6°. The kit also includes the battery-powered Aquauno Mist timer, which automatically turns on the cooling system at regular intervals. Operating pressure: 3-6 bar.

CONTAINS

Hose	12 m	Spring clips to fasten hose	17
In-line micro-mist nozzles	8	3/4" thread male connector	1
End-of-line micro-mist nozzle	1	Connector for hose with washable filter	1
Clips + screws to fasten hose	17 + 17	Aquauno Mist timer	1
