

NEW FOR 2023

TWIDDY

Practical, light, clean, convenient... we could go on in listing its qualities, but it's when you turn the tap on that Twiddy suddenly surprise us. Because the new fabric hose made by Claber can double in length when water flows through it, and the 'Follow me' system makes it expand even further, so as to reach any point you want to water. Pleasant to touch, always clean, manoeuvrable without ever getting twisted, Twiddy will exceed all expectations.

TWIDDY

Exceeding all expectations.

2X
EXTENDABLE

SPECIAL "CLEAN HOSE"
TREATMENT

COMES WITH MULTIPURPOSE
SPRAY NOZZLE

ALWAYS TIDY
EASY-TO-STORE

IDEAL ON THE TERRACE,
ON A BOAT,
IN A CAMPER VAN.

NEW FOR 2023

TWIDDY 12,5 m

9336

Extendable textile hose with accessories. Ready at once, it fits onto the tap connector for immediate use. As water flows through the hose, it extends to up to twice its length (max. length 12.5 m with pressure between 3 and 10 bars). In addition, thanks to its "follow me" technology, pulling the hose slightly will extend it further by about 10%. Once you have finished using the hose, it shrinks back by itself. Super-light, only 70 g per metre, it's ideal for non-intensive uses like camping, sailing, gardens and terraces. A special treatment to the surface guarantees that it always looks clean after use; just wash it with water. Quick-Click fittings with anti-kink flexible end for easy use in any direction. Multifunction spray nozzle featuring 5 jets: shower, concentrated, mist, cone and flat (+ 1 OFF). Working temperature from -10 to + 50°C. Max. working pressure: 10 bar.
