

SPIRAL KIT

Spiral hose, tap connector and multifunction head or spray nozzle with adjustable jet: all in one package! Keep it close to hand whether in your garden, out on the terrace, at your holiday home, in your campervan or on your boat.

All Spiral Kit components have been designed to work perfectly and last.

The hose undergoes a special treatment during production, meaning it always returns to its compact spiral shape, making it easy to store away tidily in its wall bracket.

FLEXIBLE
IRRIGATION

Spiral Kit is a simple, practical and efficient solution for watering flower beds or pot plants, taking up minimal space.
