

LIFE OUTDOORS

Claber has really thought of everything, suggesting practical solutions for gardens and living spaces, like the Malibù Shower, which can be placed on any surface thanks to its stable tripod base, to offer a relaxing moment in the midst of the greenery or at poolside.

For collecting everything in the garden, as well as at home or in the office, there's Carry Cart, the solid, extremely light multi-purpose cart that can be taken everywhere with ease thanks to the sculpted tread of its wheels, ideal for heavy loads too, used with robust Claber bags in recyclable material. Lastly, not forgetting Claber's cleaning solutions: from pistols with dynamic jets for cleaning walls and paving stones to brushes with soft bristles for washing cars and bicycles safely and gently.

CARRY CART ECO

8934

The original cleaning up cart for the disposal of outdoor refuse (leaves, grass cutting, paper, etc.) Rust-resistant aluminium frame, it can be left outdoor as it is completely weatherproof. Push-in connecting system of the innovative hivestructure side upright. The ring supporting the disposal bag can be adjusted to different heights thanks to the lever clamps, overcoming any problem due to the size of the collecting bags. Resin clamps fit the bag to the ring.
New snap-fit polypropylene support base is able to withstand heavy loads. Aluminium wheel-axle inserted into proper slots.
