

AQUA-MAGIC® SYSTEM

Plants and flowers enthusiasts do not always have a tap available to water their pots on their terrace or balcony. Claber has the answer to this frequent problem: Aqua-Magic System. This ready-to-use kit allows you to set up a drip irrigation system without needing to connect to the power or water mains. Everything you need comes in the kit: a special timer with a built-in pump and a photovoltaic panel, drippers and all the accessories for watering up to 20 pots. Aqua-Magic System can be used together with any standard water recipient or with the Aqua-Magic Tank, a special foldable tank that can hold up to 80 litres of water. It is easy to transport and assemble and takes up minimum space.

AQUA-MAGIC® SYSTEM

The magic of water with no taps and no electrical power sockets.

PLENTY OF CAREFREE DAYS!
USE WITH AQUA-MAGIC TANK
OR ANY STANDARD WATER RECIPIENT

IDEAL FOR HANGING VEGETABLE
GARDENS AND FLOWERING PLANTS,
EVEN ON DIFFERENT LEVELS

POWERED BY SUNLIGHT THANKS TO
THE PHOTOVOLTAIC PANEL
THAT RECHARGES THE BATTERIES

QUICK AND EASY TO PROGRAMME
WITH TWO CONVENIENT DIALS

AQUA-MAGIC SYSTEM

8063

Independent ready-to-use drip kit. It includes timer, photovoltaic panel and built-in pump to draw water from a tank, filter and deliver it to 20 drippers. Inspectable filter for easy cleaning.

The photovoltaic panel absorbs the light energy and turns it into electrical energy which is accumulated in 2 rechargeable AA 1.2V NiMH 1800mAh batteries (not included).

A specific led reports the battery level. 54 possible irrigation solutions, which can be set with just 2 rotating knobs: one with the frequencies (between 1 and 7 days), the other with the amount of water that you wish to deliver with each dripper (between 40ml and 200ml). Optional manual irrigation: 100ml per dripper (the programme remains stored).

It can be used with any tank.

The kit contains:

- 1 solar timer-pump
- 1 anti-siphon flow blocking valve at the end of irrigation
- 1/4" suction filter
- 1 bracket with screws and plugs for wall-mounting
- 20 self-regulating drippers
- 20m of 1/4" (4-6 mm) feeding tube
- 20 1/4" support stakes
- 5 1/4" 3-way couplings
- 6 hole plugs

8063		1	29,5 x 30,5 x 7,5	29,5 x 30,5 x 7,5	0,007	1,26	108	

AQUA-MAGIC TANK

8061

Folding tank with a capacity of 80 litres for Aqua-Magic System (code 8063).

Easy assembly with polypropylene sleeves.

Sturdy and stable thanks to the easy-to-assemble aluminium frame with special anti-scratch covering. Equipped with a special coupling bar to position Aqua-Magic System.

Dimensions when open: 40 x 40 x 85 cm.

At the end of the season, it can be tidely stored, taking up minimum space.
