GARDENLIFE
2025

THINK OF THE WORLD AS EVERYONE'S BACK YARD

Step onto grass and let a breath of fresh air wash over you. Awaken the senses with fresh smells and new shoots, reflecting the love and attention we put into caring for our green spaces.

We see the world as one big garden, but turning this dream into a reality requires us all to take concrete actions.

At Claber, we work hard every day to inspire a new culture, coming up with new ways of making watering easier for you, and more efficient and sustainable for the environment. We set ourselves increasingly ambitious goals, focusing not only on our products but everything that surrounds them, like the packaging, made with sustainable, recyclable materials.

We're moving towards a brighter, more environmentally aware tomorrow, one step at a time.

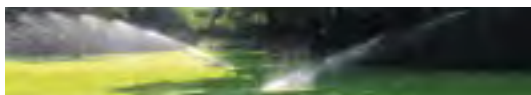

claber®

INDEX

From Claber expertise comes the most extensive range of DIY irrigation products in the market. Three specific lines offering tailor-made solutions; several product families made to last and that make everyday irrigation easier.

NEW TECH: NOURISHING TOMORROW

GREEN THINKING
New Trends

New ways to make looking after your garden even easier and more sustainable.

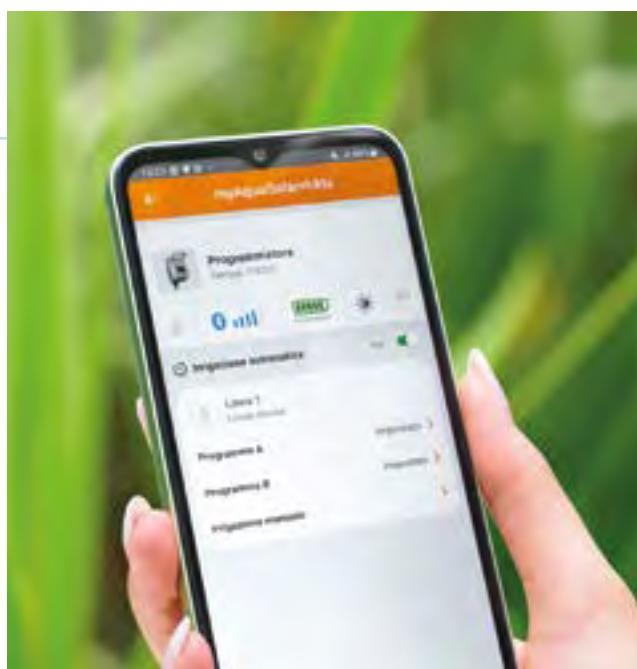

MANAGE YOUR
DRIP IRRIGATION SYSTEM
WITH A SMART TIMER

01

AN ECO-FRIENDLY GARDEN

Do you dream of a garden in full bloom, without wasting water and energy? With Claber, you can have the best of both worlds. Our systems allow you to calibrate every last drop of water, with sensors that stop watering if it's raining and a range of timers that are fully solar powered.

With myAquaSolar, you can program sustainable irrigation programmes from your smartphone (from page 96).

AND HEIGHTS TO CREATE MOVEMENT

02

SO MUCH BEAUTY IN A SMALL SPACE

It just takes a splash of creativity to transform even the tiniest of balconies into a relaxing, luxuriant green oasis. By choosing the right plants and making the most of vertical space, you can create your own happy place, even in the heart of a bustling metropolis.

SHOOTS OF INNOVATION

Technology, nature and design – this synergy can redefine the way we live. If you're surrounded by limitless greenery, innovative solutions can make watering not only easier and more efficient but also more sustainable, whether for drip irrigation or underground systems in a small garden.

Go to our website claber.com to keep up with the latest news.

USE GRASS AND HEDGING TO DEFINE YOUR SPACES AND GIVE YOUR GARDEN CHARACTER.

Sustainability: at Claber, sustainability is more than just a slogan - it's what inspires us; it's the end goal that guides us in everything we do.

We're part of the change, being responsible, designing products and taking concrete action. We're committed to the cause and we believe in what we do, and the results show we're making the right choices. We care about the environment, about people, and about doing things well.

LET'S FOLLOW NATURE'S LEAD AND USE ITS RESOURCES IN THE BEST WAY WE CAN

Plastic has many great qualities but is it always the only option? We use only certified raw materials and opt for recyclable material where possible, without compromising on the durability and strength of our products.

We have redesigned the packaging for our products, replacing plastic parts with more sustainable FSC® cardboard and rethinking the shapes and sizes. Where we need the window to be see-through, we use cellulose, so our packaging is 100% recyclable.

This smart development puts our products in the best light, as well being ultra-practical. We take our lead from the best teacher, Mother Nature, and her perfect regeneration mechanisms.

A BREATH OF FRESH AIR,
TAKING RESPONSIBLE ACTION

More sustainable packaging
for all Claber products

MORE SUSTAINABLE PACKAGING, THAT
LOOKS BETTER TOO

This was the perfect opportunity to overhaul our graphic design too, giving it a practical, contemporary feel. Intuitive images and multimedia links make our products easy to assemble and use. Fresh new graphics make the products stand out on the shelf.

WHAT DOES FSC® MEAN?

The FSC® logo stands for the Forest Stewardship Council® and is used to identify wood and paper sourced from sustainably managed forests, safeguarding wildlife and plant life, and respecting the social, economic and ecological needs of the generations of today and tomorrow.

TAKING PLEASURE IN THE SIMPLE THINGS

Claber wants to impress even with the simplest of everyday products. The quality of the product build, their practical uses, plus many little useful details all show the close attention Claber pays when designing its products, choosing only the very best materials. It's quality that keeps renewing, quality you can appreciate day after day.

The sprayer bringing high quality and new features to every home and garden

Claber has paid attention to every little detail, making this multifunctional must-have product even more versatile and easier to use.

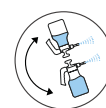

Available in 1,5- or 2-litre versions, Claber sprayers are both robust and lightweight. Its advanced ergonomics and a handy continuous jet button make it easy to hold and mean it won't tire you out, even during prolonged use.

The jet can be concentrated or nebulised and flows continuously, even when angled or flipped over.

Use with water or fertilisers and other additives for many different situations, stress free.

The adjustable ring nut allows you to mark and keep your preferred solution.

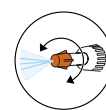

The sprayer you can't do without.

ABOVE-GROUND IRRIGATION

WATERING IS A REAL PLEASURE

Everyone can find the right solution for their needs with Claber's extensive above-ground irrigation range.

The pistols and spray nozzles not only have a cutting-edge design, but they are also efficient and comfortable to hold, made of materials that guarantee perfect grip.

The sprinklers are lightweight yet sturdy, designed to last over time and handy to adjust.

This makes them perfect for any garden or green space. Our hoses are made of first choice materials and can be used with our extensive range of hose reels, helping you move freely around your garden.

Our automatic couplings, easy-to-install in a quick click, meet all the most common connection needs, ensuring no water waste.

Claber products not only look great, but are also handy and easy to use, making watering a relaxing and enjoyable experience.

A woman with blonde hair, wearing a yellow top and denim shorts, is watering plants in a garden. She is holding a yellow hose that is connected to a black reel on the grass. The background features a modern house with large windows and a covered patio area. The scene is set in a lush garden with various plants and trees.

Give value to the time you
spend in the garden

Choose technology, without
compromising on style

A MATTER OF STYLE

Convenience, the choice of different jet patterns, quality materials and a unique design: the wide range of spray nozzles and pistols perfectly represents Claber unmistakable Made in Italy style.

CONNECTING UP

Much more than just simple connectors and couplings. In addition to being the most comprehensive and universal range of products, Claber range stands out for the work that has been done on such a small yet vitally important accessory, for perfect irrigation with no wasted water.

WHEN EVERYTHING TURNS OUT RIGHT

Practical, lightweight and sturdy, Claber hose reels and carts have one sole purpose: making your life in the garden easier every day.

AN AQUATIC DELIGHT

Static, rotating, oscillating and pulsating sprinklers guarantee perfectly calibrated and even irrigation across the lawn, creating pleasant water patterns with a light rain effect.

A PRECIOUS MOMENT

Watering your flowers, lawn or vegetable patch first thing in the morning, or as the sun goes down in the evening. The smell of wet grass. Droplets of water sliding off the leaves, forming little streams on the ground. These are invaluable everyday moments that Claber helps you treasure with its range of products.
